

GOLDEN SCRUB
Gold face scrub

It is an innovative scrub formulated to remove all impurities and give new shine and radiance to the skin.

Thanks to the ionic gold and amino acids, an extraordinary illuminating effect is obtained and Regenerating.

The multidimensional polylactic acid microspheres are an extraordinary eco-sustainable exfoliation system characterized by a very high dermocompatibility and eco-sustainability.

Apply the product to well-cleansed and slightly moistened skin, avoiding the eye area and hairline. Leave on for a few minutes, massage with gentle circular movements from the bottom up, rinse with warm water and apply IdraSeta Elixir.

IDEAL FOR:

- All skin types;
- Those who want a brightening exfoliation;
- Mature skin that needs radiance;
- Young and masculine skin to purify and smooth.
