

IALURONGLOW

Multi-active serum with hyaluronic acid and Luminescine

NUOVO FORMATO da 50 ml

Description:

It is a concentrated infusion of pure hyaluronic acid, beta-glucan, and luminescine, specifically formulated to hydrate and smooth the skin, providing a marked illuminating, moisturizing, immunomodulating, and anti-aging effect. Ideal for achieving luminous, firm, silky, plumped, and smooth skin.

How to use:

Apply after cleansing and toning on face, eye contour, neck, and décolleté. Gently massage from bottom to top and from inside to outside until fully absorbed. Finish with the application of cream.

IDEAL FOR:

- All skin types;
- Deep and surface hydration;
- Plumping and smoothing the skin;
- Performing a natural anti-aging action.

INGREDIENTS:

Water, Sodium Hyaluronate, Sodium Carboxymethyl Betaglukan, Verbascum Thapsus Flower Extract, Lecithin, Glycerin, Phenoxyethanol, Ethylhexyl Glycerin, Parfum.
